Okeanos Blue Water

What is Okeanos Blue Water?

Okeanos Blue Water is a non-toxic and environmentally friendly blue dye that controls the growth of algae and aquatic plants in lakes and ponds. It helps prevent excessive growth, keeps your ponds clean, and maintains a visually appealing appearance.

Features and Benefits

- Transforms Your Pond into a Stunning Blue Color: The vibrant blue hue enhances the visual appeal of your pond.
- Reduces Algae Growth: Uses nano-technological ingredients to block sunlight, effectively reducing the formation of algae.
- Eliminates Harmful Chemicals: Removes the need for harmful chemicals such as chlorine.
- Easy Application: Simple to apply with no additional equipment required, making it a practical solution.
- Safe for Aquatic Life: Does not harm fish or other aquatic organisms.
- Year-Round Use: Safe to use in any season.
- Reduces Manual Labor: Minimizes the need for manual algae control.
- Highly Economical: More cost-effective than traditional disinfection chemicals.

Usage Instructions

Okeanos Blue Water is offered in liquid form, making it easy to calculate the required amount to color a pond or lake. Simply pour Okeanos Blue Water in different areas of the pond for even distribution.
